

# ENGLISH

This term children will start reading Vile Victorians by Terry Deary. There will be a focus on reading fluency, retrieval, inference and vocabulary skills.

In writing, we will be constructing formal letters, recounts and poetry. We will always focus on the impact on the reader and the purpose of writing in that genre. Our use of conjunctions, range of punctuation to end sentences as well as improving and editing our work will be central to this term.

# MATHS

This term children will consolidate the key concepts from Year 2 in preparation for Year 3. We will be looking at any gaps they have in number, place value, the four operations, fractions, measurement, geometry and statistics.

At home, continue practising your two, five and ten times tables on Hit the Button and Times Table Rock Stars.

# PE

This term children will be studying the topics 'Striking and Fielding' and 'Athletics'. This term we will hold our Sports Day.

2H – PE on a Monday  
2N – PE on a Tuesday

Please remember to wear your PE clothes on those days to school.

# HUMANITIES

This term children will continue their learning about Magnificent Monarchs. They will learn about hierarchy and power in the monarchy before focusing on three significant monarchs of the past: King Henry VIII, Queen Victoria and Queen Elizabeth II. They will learn about these Monarch's achievements and their lasting legacies. They will then reflect upon who was the most significant monarch.

# YEAR 2 SUMMER 2

# DESIGN AND TECHNOLOGY

This term children will learn about fabric home products and the significant British brand Cath Kidston. They will learn about sewing patterns and using a running stitch and embellishments before making a sewn bag tag.

# MUSIC

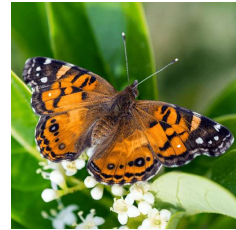

This term children will use Vivaldi's 'The Four Seasons' to inspire composition. They will make simple musical ideas based on each season, note them using a graphic score and perform their work to others.

**Heathfield**  
PRIMARY SCHOOL

# SCIENCE

This term children will continue their learning about Animal Survival. They will learn more about what habitats are and what they provide. Children will learn how humans can positively and negatively impact habitats and will identify opportunities to support habitats and living things on the school grounds.

# COMPUTING

In computing this term, we aim to teach children how to create a simple stop frame animation using plasticine models. Children will look at professionally made animations to identify how they are put together and then storyboard and create their own.

# RE AND PSHE

In RE, they will know that different religions believe in different Gods. They will also learn about nature, what the five senses are and how we use them to appreciate beauty in the world. In PSHE, we are learning about health and well-being. Focusing on our feelings and how that can affect our bodies, how we manage feelings and how to ask for help.
