

# ENGLISH

This term the children will be exploring the story 'Beegu'. They will be creating comic strips inspired by the characters in the story. They will learn to ask questions using the correct vocabulary and use question marks in their writing.

The children will then shoot off into space and write a character description of Bob from the story, 'Man on the Moon', using exciting adjectives to entertain the reader. The children will continue focusing on capital letters, finger spaces and full stops.

# HUMANITIES

This term the children will be learning and building on their knowledge and understanding of chronology to identify when the famous moon landing took place. They will explore how the actions, words and events of significant people can impact us and history. They will find out facts about the life of Neil Armstrong and his journey into space. They will also compare the life of an astronaut now to then.

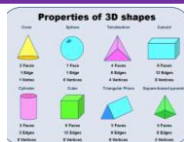

# SCIENCE AND DT

This term the children will be taking part in a very exciting STEMterprise project. The children will be working in groups to complete a range of cross-curricular tasks in order to prepare their own ingredients, develop their own food flag yoghurt products and set up a yoghurt café. The children will be learning a range of skills to design a healthy food flag, make their own food product, evaluate a food product and advertise a yoghurt café.

# MATHS

This term the children will be learning all about geometry. They will be recognising, naming and sorting 2D and 3D shapes. The children will be identifying the properties of shapes and using vocabulary such as 'vertices', 'faces' and 'edges'. They will also be comparing and measuring a range of lengths and heights. The children will be focusing on comparing a range of objects and identifying which ones are 'longer' or 'shorter'.

# YEAR 1 SPRING TERM 2.1

# ART

This term the children will be focusing on the artist Dame Elisabeth Frink. They will be creating sculptures using a range of materials such as: modroc, clay and salt dough. The children will be experimenting how to manipulate these materials in a variety of ways. They will be doing this through pinching, kneading, moulding and rolling.

# COMPUTING

This term the children will learn how to use spheros. The children will create their own maze and navigate the spheros using the touch pad. They will focus on what direction they would like to move the spheros to complete the maze.

# PE

This term, the children will be exploring yoga and ball skills. In yoga, the children will learn about mindfulness and body awareness. The children will also explore their fundamental ball skills such as: throwing, catching, rolling, dribbling and kicking a ball.

# MUSIC

This term the children will be learning about old-school hip-hop music. They will be composing their own words to the song 'Hey You!'

# RE AND PSHE

This term in PSHE, the children will be learning about staying healthy. In RE, they will learn about fairness and also understand that they are accountable for their actions.
