

ENGLISH

This term the children will be reading Fortunately the Milk by Neil Gaiman. During reading lessons, we will learn to predict and answer a range of literal and inference questions using evidence in the text to support our answers, and to develop asking questions to improve their understanding of the text.

In writing lessons, we will be working on haiku poems, news reports and play scripts. Key skills are the use of different sentence openers, noun phrases, conjunctions, similes, persuasive vocabulary and the consistent use of punctuation.

MATHS

We will be learning how to multiply 2 digits by 1 digit with exchange. Also, to divide 2 digit by 1 digit with and without remainders. We will also discover scaling.

Then, we will have a money week, where we will learn about pence and pounds, convert pence into pounds, adding money, subtracting money and giving change.

Please make sure your child is practising their times tables on Times Tables Rock Stars.

PE

This term, the children will be developing their cricket skills through mini activities and games. On a Thursday, we will go on our walk to the park and back.

3PM PE kit on a Monday.
3G PE kit on a Tuesday.

HISTORY

The children will learn about the Greeks and their influence on the western world. They will explore life during those times and learn about some key events that took place during their civilization. They will consider what it would have been like to live in a family at the time. They will also learn about the Greek Gods and how they meant so much to the day to day running for Ancient Greek life.

YEAR 3 SUMMER TERM 3.1

DT

The children will be learning how climate affects food growth, understand the advantages of eating seasonal foods grown in the UK, create their own recipe and follow a recipe when cooking.

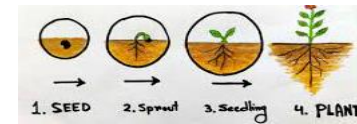

MUSIC

In music, they will continue to develop their skills with their recorders. They will embed using A, B and G notes. Before learning about Three Little Birds by Bob Marley.

SCIENCE

This term the children will be focusing on the topic of plants. They will be using observations and investigations to learn.

They will, by the end, understand the different functions of a flowering plant; requirements for a plant to live and grow, how water is transported around a plant and the life cycle of a plant.

COMPUTING

This unit aims to teach students the basics of coding through interactive games and written code.

Children will solve simple puzzles on the Apple Swift Playground App, in order to learn the different elements of coding.

RE AND PSHE

In RE, they will learn about what Islam teaches on honesty and truthfulness. Also, they will learn about the value of silence, listening and other forms of communication.

In PSHE, we are focusing on why we should eat well and look after our teeth.
