

WRITING

Young Writers: Keep an eye out for some exciting writing competitions that 'Young Writers' regularly upload. The children's work can get chosen to be published in a book.

<https://www.youngwriters.co.uk/competitions/KS2>

Have a go at writing your own ending from a story starter that you choose. You can email it to the creator himself so he can give you feedback.

READING

Create a reading for pleasure scrapbook of all the new books you read over the summer.

Summer reading challenge is a good place to start:

<https://summerreadingchallenge.org.uk/news/general/gadgeteers-intro>

There are a range of books you can read over the summer to help you transition into year 7. Have a look at the ones you may enjoy:

MATHS

Children will be revisiting some key topics in preparation for year 7. This includes place value, the four operations, area and perimeter, ratios and fractions.

Heathfield
PRIMARY SCHOOL

TRANSITION ACTIVITIES

Draw an outline of yourself. Inside the body draw/write anything to describe you. For example: your favourite subjects, likes/dislikes, personality.

Write a letter to your new school! In it, you can tell them:

- What life was like at primary school,
- What you really enjoy, as well as what you find tricky
- How you have coped in the last few months. Is there something you have discovered about yourself? Anything you might need help with?
